Live, Train and Play as Atletico do!

Atletico de Madrid is an institution with a long tradition in the development of young footballers. The Club believes not only in the sporting development of players, but also in their personal growth, and therefore seeks to promote values such as solidarity, comradeship and equality through sport, as well as the improvement of social and communication skills.

Work hard to achieve your goal!

The Atletico de Madrid, together with Choices International, will help you to develop your sports skills while you learn and have fun. Under the supervision of the technical team, you will acquire the knowledge and skills needed to keep improving day by day. The programme is tailored to different age groups and includes educational play activities in dynamic environments. Our goal is for children to have an unforgettable experience, during which they learn values such as solidarity, friendship and equality.

Sports Management and Coaching Staff

The technical team will bring out the best in each player, helping them to achieve the optimal level of performance for their age group; and providing a safe and secure environment in which to play football while making friends and having fun.

We will work on individual skills and group work strategies, as well as technical and more specific tactical soccer game systems to help with player progression. Goalkeepers will also have specific training. Our team will pass on their professional experience and demonstrate the values upheld by Atletico de Madrid such as effort, teamwork and solidarity.
